3 Step Immersion Method For Washing Dishes, Glassware, Utensils, Pots and Pans

PRE-SCRAPE:

Remove food debris before cleaning.

FIRST SINK:

Wash in clean, hot soapy water.

SECOND SINK:

Rinse in clear, hot water to remove soap and food residue.

THIRD SINK:

Sanitize:

Immerse at least one minute in a solution of one (1) teaspoon of bleach to each gallon of water or another approved sanitizer.

AIR DRY ONLY:

Drying with the same towel again and again can put more disease-causing organisms back onto the sanitized items.

(Rev. May 2007)
