## *Hand Washing Center For Temporary Food Events*

### Equipment needed to set up a portable hand washing station:

- Water jug with spout

A 2 gallon jug from the grocery store with a spout will work.

- Bottle of pump soap

- Roll of paper towels

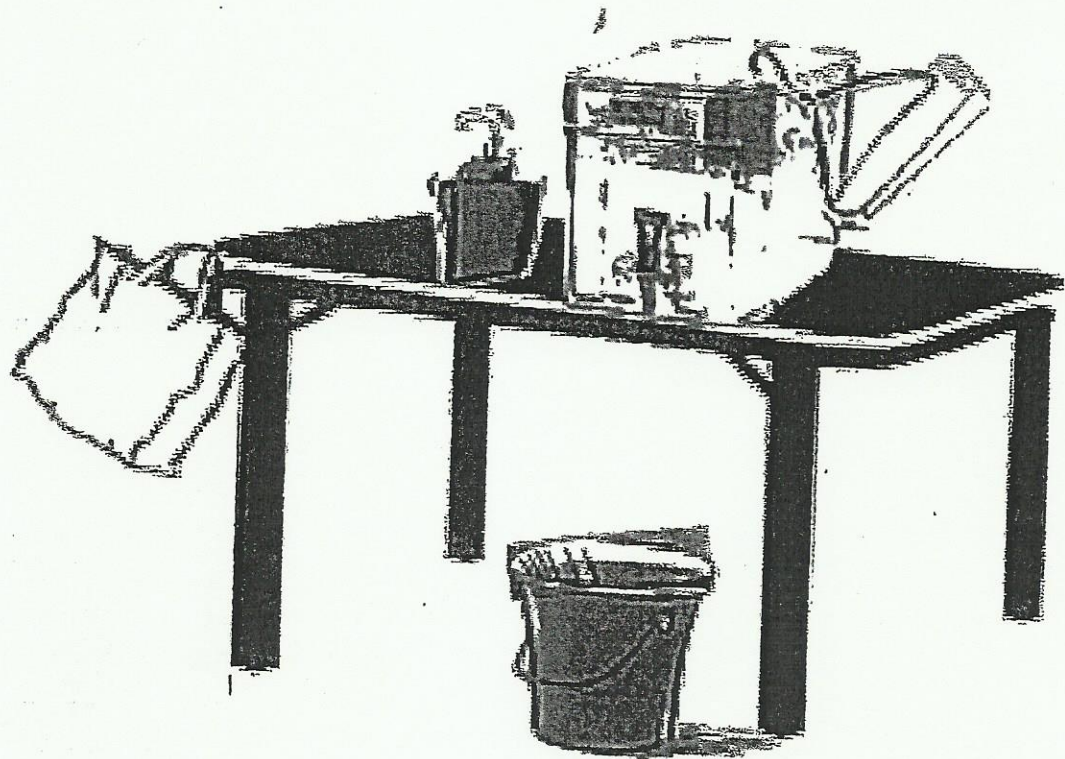

Take a pants hanger and replace the cardboard roll with the towels.

- Bucket

Place the bucket under the water spout to catch the water.

- Bag for used paper towels

Chemical hand sanitizers are **NOT** an acceptable replacement for hand washing.
